

Entering GNSS Codes Manually in The MaveriX

If putting in a GNSS subscription (Atlas, RTK, etc) you must touch the check mark with "GNSS License" behind it under the "Enter Activation Code". The check mark will turn green. Now follow the instructions below.

Enter Code

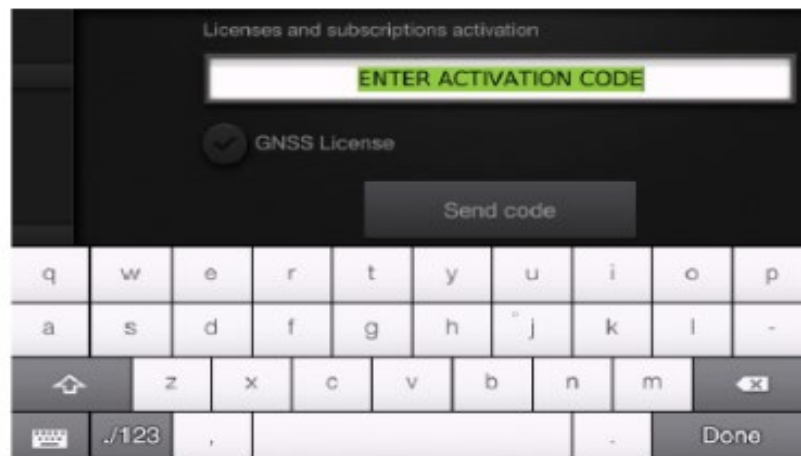

To enter a new **Activation Code**, double-click the **Enter Activation Code** window.

Type the **Activation Code** and confirm your entry by pushing the **Done** button.

Push the **Send code** button to submit the **Activation Code**.

Please allow 2 or 3 minutes for the Atlas to appear in your Subscriptions and Atlas expiration date. Regardless if they show or not, reboot the MaveriX after waiting those 2 or 3 minutes. If your subscription still does not show, retry entering it. If after the 2nd entry and reboot of the MaveriX the Atlas does not appear in your Subscriptions and an Atlas expiration date does not appear, call Tech Support at 1-800-247-3808. Please be with your MaveriX system with it powered on.
