

Entering Atlas Code via USB for MaveriX

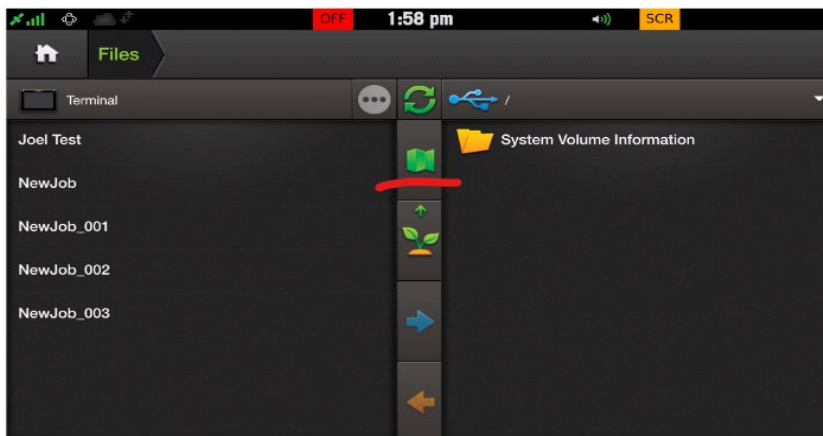

1. Insert into USB port of the MaveriX. It will be automatically detected by the terminal.
2. Click on the "Home" icon in the lower left of the screen

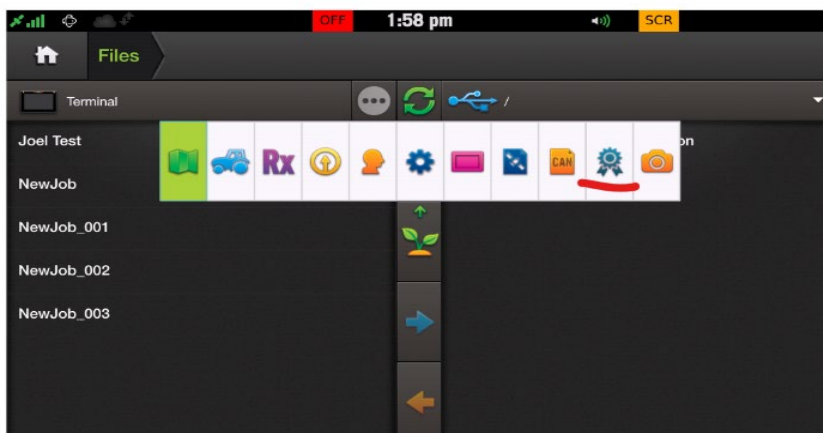

3. Click on "Files"

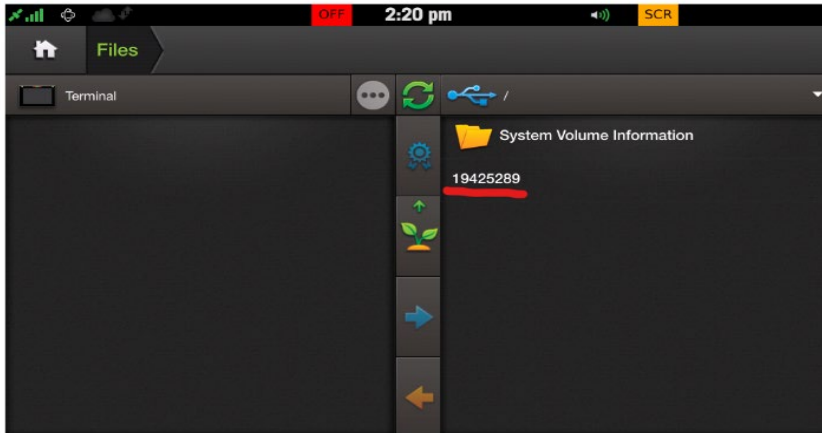

4. Press the Map file symbol (under the Refresh button) to open the file type selector.

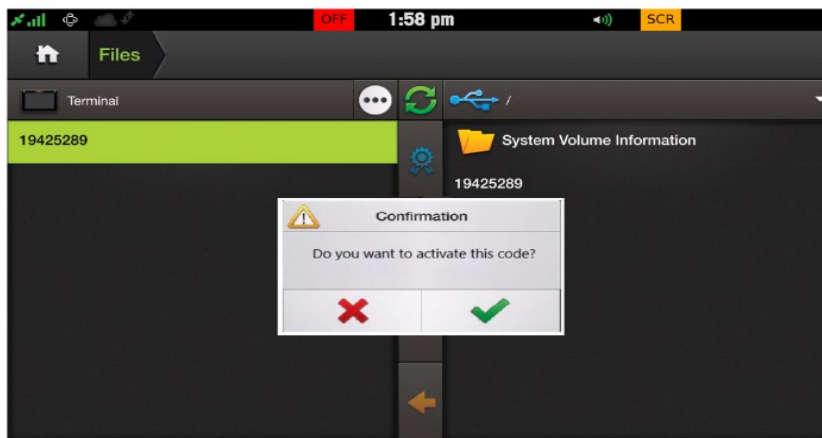

5. Use the File Type selector to choose the Activations file type. (The Blue Ribbon)

6. Select the file to be transferred and it will highlight in green. Then click the orange arrow pointing to the left

7. Now double tap the transferred file and it will ask you for confirmation that you want to activate the code.

8. Click on the green check mark.

Now check the Subscriptions and Expiration date. Make sure Correction Type is set to Atlas and then reboot the MaveriX. Allow the vehicle to sit stationary for 15-20 minutes for a Broad-Acre subscription and 25-30 minutes for a Row-Crop Subscription for the initial signal seed in. Contact Outback Guidance Tech Support at 1-800-247-3808 or by email at support@outbackguidance.com.
